

Is this the second reconsideration of it?

CLERK: The bill failed to advance on March 13.

SENATOR KEYES: Senator Luedtke, are we going to permit all bills that fail to advance...are we going to have them taken care of ahead of the priority bills of the other Senators? If we are, we'd just as well go ahead and say that we're going to take the bills that have been voted down, consider them every day and every day and every day.

SPEAKER LUEDTKE: In answer to your question, this was not a priority bill, as I recall.

SENATOR KEYES: Well, I'd just like to know.

SPEAKER LUEDTKE: This is not a priority bill. This is just on Select File, following the normal procedure and there is an opportunity to have it have its second chance to go across the board.

SENATOR KEYES: Before somebody's priority bill gets considered you're going to give other people the right to consider two and three times their bill.

SPEAKER LUEDTKE: Well, this is nothing to do with the priority.....

PRESIDENT: Priority file is on General File

SPEAKER LUEDTKE: Yes, right.

PRESIDENT: And this is Select File.

SPEAKER LUEDTKE: That's correct.

SENATOR KEYES: We have considered some of these bills two and three times and people are out here that have a bill of their own that they think is important. They'd like to see it brought up.

PRESIDENT: Senator DeCamp.

SENATOR DE CAMP: Mr. President, very briefly, I support and endorse the Dworak amendment. So we know what we are doing, we are maintaining the lobbying sections. That was the big concern everybody had but we are putting them under the system that worked very well before. Keeping the files and records of the Legislative Clerk. So, we are eliminating the Commission. So, you understand that? We are returning to a system of having an Attorney General of the state. Of having the Secretary of State involved in keeping records. So, I endorse the amendment and urge you to support the bill.

PRESIDENT: Senator Bereuter.

SENATOR BEREUTER: Mr. President, members of the Legislature, Senator Dworak is to be commended for taking an action that was overdue here. It was irresponsible for Senators who made the initial change to delete all provisions which covered lobbying in this state and Senator Dworak is trying to do something about that. Unfortunately I cannot support his proposal, however, because he is going back to the old procedure and eliminating the requirement for the Political Accountability Commission to exercise that function. Yes, what he is doing is overrule because what was done and what's done
